

# GED® INTEGRATED SOLUTIONS

GED Integrated Solutions has been putting its productivity to the test for over 35 years.

## ► Innovation:

From products and software to consulting, service and preventive maintenance, GED brings workable solutions to your real-life, real-time challenges. It is an integrated approach that takes your business further, whether you measure productivity in hundreds of thousands of units per day. Welcome to GED Innovation.

## ► Integration:

At GED, our business model is a synergistic approach that emphasizes teamwork and productivity. Our LeanNet® Software System rolls it all together to give you real results. Whether it is a glass washer, conveyor or a complete system, GED meets your needs with products and solutions. Welcome to GED Integration.

## ► Inspiration:

GED blends innovation and integration to create solutions that change the way you do business, a commitment to quality that saves you money, and a continued search for better ways to get things done. you get solutions that are better, faster, and less expensive. Welcome to GED Inspiration.

GIVING YOU GREATER CONTROL THAN EVER BEFORE

## GLASS FABRICATION

### IG SPACER FABRICATION

Intercept® i-3 Spacer Frame Machine  
GEN 2.5 Intercept® Frame Machine  
Intercept® ULTRA Spacer Frame Machine  
Automated Tri-Lite Assembly System (ATLAS®)  
Smart Extruder i-3 Plus Pumps  
IG Assembly Tables  
Oven Roll Press i-3  
Overhead Conveyors

### CUTTING AND LOADING

CleanCut i-3 Cutting/Edge Deletion System  
6000 Series  
1600 Series  
Laminated Glass Cutting  
Auto Loading

### WASHING

Stainless Steel Glass Washers  
AquaSave™  
AquaFresh®

### MUNTIN/GRID/GEORGIAN BAR FABRICATION

Intergrid®  
Contourgrid™  
Two-Tone Muntin Material

### SCREEN FABRICATION

Screen Frame Machine

## INDUSTRIAL DIGITAL UV PRINTING SYSTEMS

TwIndex®

## WINDOW FABRICATION

### CUTTING

Single Cut-Off Saws  
Double Cut-Off Saws  
Double Mitre Saws  
Double Mitre/Straight-Cut Saws  
Undercut Saws  
ZeroScrap Saws  
Autofeed Saws  
Linear Gauges  
SD-20 Batch Cutting Saw

### FABRICATION

Notching Saws  
Routers  
End Mills

### WELDING

Four Point Welders  
- SW6000  
- SW7000

### CLEANING

Twin-Station Cleaners  
- ROBOCLEAN® (RC-2000)  
- PC 4000  
- CM4100

### AUTOMATED SYSTEMS

- Batch Cutting  
- Parts Fabrication Systems  
- SIGMA Welding & Cleaning

## SOFTWARE PROCESS

### LEANNET®

Scrap Reduction  
Lean Manufacturing  
Downtime Reduction  
Custom Software Systems

## MATERIAL HANDLING

Free-Fall Rack & Base  
Glass Harp Carts  
Sealed IG Carts  
Roller & Caster Tables  
Muntin Handling, Assembling

## TRAINING

Dedicated training and technical center  
Hands-on training with dedicated machines and computer stations  
Focused learning without interruption to the manufacturing process
