

KEEPING HANDS OUT OF HARMS WAY!

ROBOCLEAN™ RC-2000

DESIGNED TO ELIMINATE HAND CLEANING

This 12 axis robotic machine, with INFINITE axis accessibility provides:

SAFETY

- Dual zone light curtains
- Eliminates/minimizes hand cleaning
- Meets ANSI +R15
- Ergonomic operator guarding

FLEXIBILITY

- Robotic articulation equals total tool path flexibility Patent-pending
- Star Hub presents tools at multiple angles
- Robotic arm reach enables tools to clean the square from underneath and off the corners

SPEED

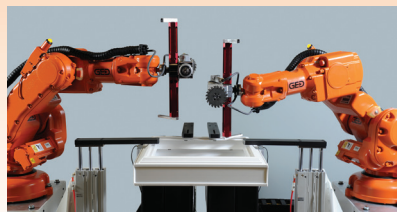

- Up to 15 percent faster than current technologies

QUALITY

- No longer limited to step movements
- 'Chatter' is eliminated on a contoured surface
- 'ORTHOGONAL' cleaning—engaging the tool to the profile at the optimum angle no matter what the contour of the profile

LOW MAINTENANCE

- Fully enclosed and self-contained
- Minimal exposed cable and moving parts equals less cable wear
- No exposure to vinyl dust/chips
- Easy access to tool changing
