

LeanNET® Grid Designer

Custom Grids Made Easy

GED
Integrated Solutions
Software Process Systems
by NxWare

FEATURES

- ▶ Design your own custom grid templates from GED's Grid Family Library
- ▶ Easy grid reference into WinIG i-3, bridge (merge) files, by using existing "Line Item Grid Stock Number", "Line Item Comment Number" or "Tag Number" fields
- ▶ Visual Designing, allows the operator to see the grid design before its actually produced
- ▶ "Design Templates" and "Production Templates" are kept separate.

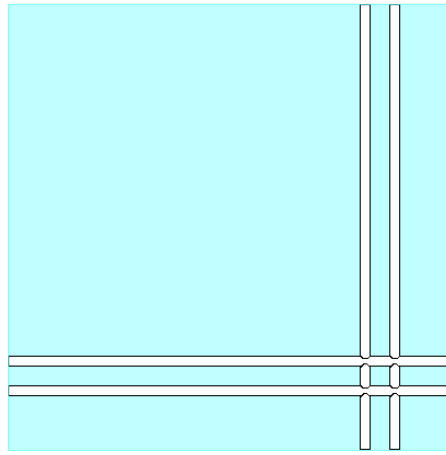

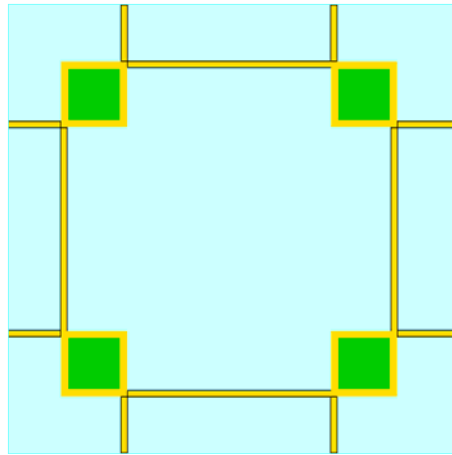

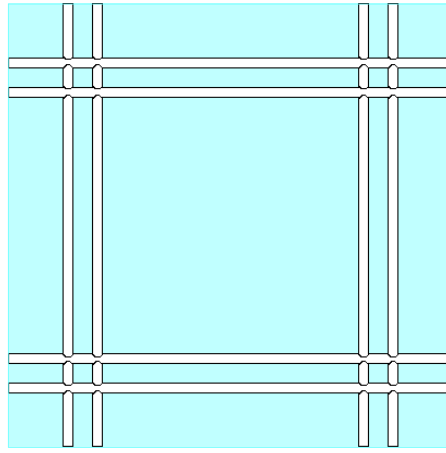

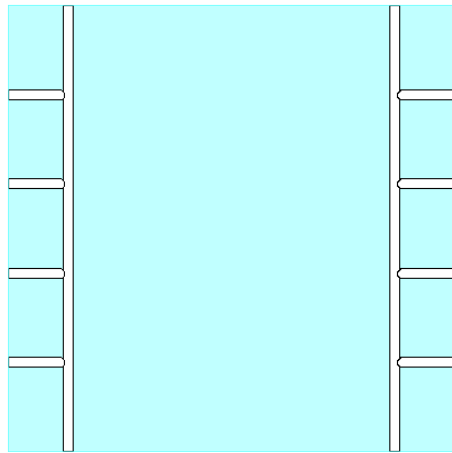

BENEFITS

- ▶ Increases customer production offerings by allowing custom grid configurations to be easily created.
- ▶ Improves the operational efficiency by removing the IT burden of having to learn a new process for grid integration.
- ▶ Increases grid design "through put" by removing design mistakes. "What You See Is What You Get".
- ▶ Reduces production grid misuse my only allowing templates marked "for production" to be available for product integration.

GIVING YOU GREATER CONTROL THAN EVER BEFORE

LeanNET® Grid Designer

Consider GED for all your needs

SPECIFICATIONS:

LeanNET® Grid Designer

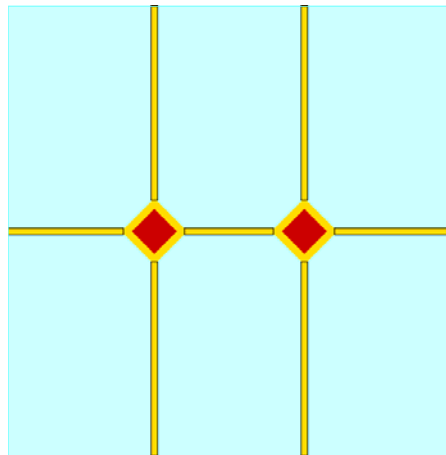

Windows XP Pro Service Pack 2, 512M RAM
100 G Hard Drive

Compatible GED Software:

LeanNET® Grid Manager (ver 2.00.31)

Compatible GED Machinery:

WinFrame-Lx (ver 2.03.08)
WinFrame i-3 (ver 1.00.56)
WinGrid T (ver 3.03.15)
WinContour (ver 2.03.01)
