FEATURES

- ▶ Multiple Management Tree Viewers, Quickly displays production and remake schedule status.
- ▶ Schedule Detailed Section, displays the details of a selected schedule.
- ▶ Multiple Report Types for Production and Remakes.

BENEFITS

- ▶ Improves production efficiency; Managers can quickly see the status of production and remake schedules, what's made, what's in process, and what has not been started.
- ▶ Improves Tracking; Managers can see specific status information for any item in the schedule, "Unmade, Patched, Remake Ordered, Remake Scheduled".
- ▶ Identifies Problem Areas; Specialized reports allow managers to quick identify problem areas (Remakes by Location, Remakes by Reason, IG Production Status and Missing Units)
