

# SL7000 i-3 SMARTLOAD WELDING SYSTEM

The SL7000 Smartload four point vinyl welding system is designed for long-term continual use with special features to allow for multi-stack welding of vinyl frame and sash.

The Smartloader i-3 module allows one operator to do the work of two.

## FEATURES

- ▶ Increased Productivity
- ▶ Posi-Lock Profile Placement
- ▶ Multi-level fixturing with Independent Referenced Weld Fixtures
- ▶ Operator Friendly
- ▶ Continuous weld cycling
- ▶ Structural machine rails and fences

## BENEFITS

- ▶ 400+ cycles per shift; machine paces production; labor saving
- ▶ No twist, racking or lost time loading; ensures accurate placement
- ▶ Stronger, more consistent welds and cleaning plus accurate sizing within each tier
- ▶ Easy to load; safer; ergonomically friendly; uncluttered work environment
- ▶ Eliminates load set-up time
- ▶ Prevents movement and deflection

GIVING YOU GREATER CONTROL THAN EVER BEFORE
