

FREE-FALL GLASS LOADING

Automate your flat glass picking and loading with a fully integrated free-fall loading system. Saves labor and time.

EXTRA DEEP EXTENSION ARMS

Double automatic free-fall arms access up to a 24" (610mm) glass rack depth

FEATURES

- ▶ Motorized table automatically accesses up to 12 different rack stations
- ▶ Glass inventory auto dropping
- ▶ Innovative ZPD wheels square glass during transport
- ▶ Optional multiple height picking arm system
- ▶ Variable travel speed of up to 105 feet/minute (32 meters/minute)
- ▶ Can be controlled by GED cutting tables

BENEFITS

- ▶ Multiple glass types, colors and sizes can be readily accessed for increased flexibility
- ▶ Eliminates one person from a typical three man operation
- ▶ Ensures consistent squaring of both large and small sheets and reduces wait time
- ▶ Raises your yield by stocking multiple sizes of glass
- ▶ The next sheet is ready to load when a scored sheet is transferred to the Break Out Table
- ▶ Seamless integration into your existing GED software platform

GIVING YOU GREATER CONTROL THAN EVER BEFORE.
