

# IG ASSEMBLY LINE

Produce more IG units and improve product quality with a comprehensive system that automates assembly. Machine controlled consistency ensures uniform, high-quality products.

## INNOVATIVE CONVEYOR DESIGN

Eliminates handling and scratching of glass; easy maintenance for reliable uptime

### FEATURES

- ▶ Paces the plant's glass line
- ▶ Automatically aligns and assembles lites
- ▶ Eliminates operator handling of glass
- ▶ Sends IG units through appropriate heating zone in accordance to GED 3550 oven design
- ▶ Easily integrates into your existing GED Intercept® line

### BENEFITS

- ▶ Provides an optimum level of production; machine sets the production rate
- ▶ Minimizes chance of glass breakage and damage
- ▶ Protects workers from handling injuries as well as fatigue from handling glass
- ▶ Ensures oven is operative in most energy efficient mode
- ▶ Seamless integration into your existing line

GIVING YOU GREATER CONTROL THAN EVER BEFORE.
